

Promoting Awareness and Benefits of GEO EGIDA – WP3

GEO-EGIDA Workshop,
Bonn, Germany – May, 9-11, 2011

Goal

- *EGIDA aims to **create incentives** and promote GEO in S&T Communities by providing direct support to the GEOSS S&T Roadmap and the relevant activities of GEO Task ST-09-02*

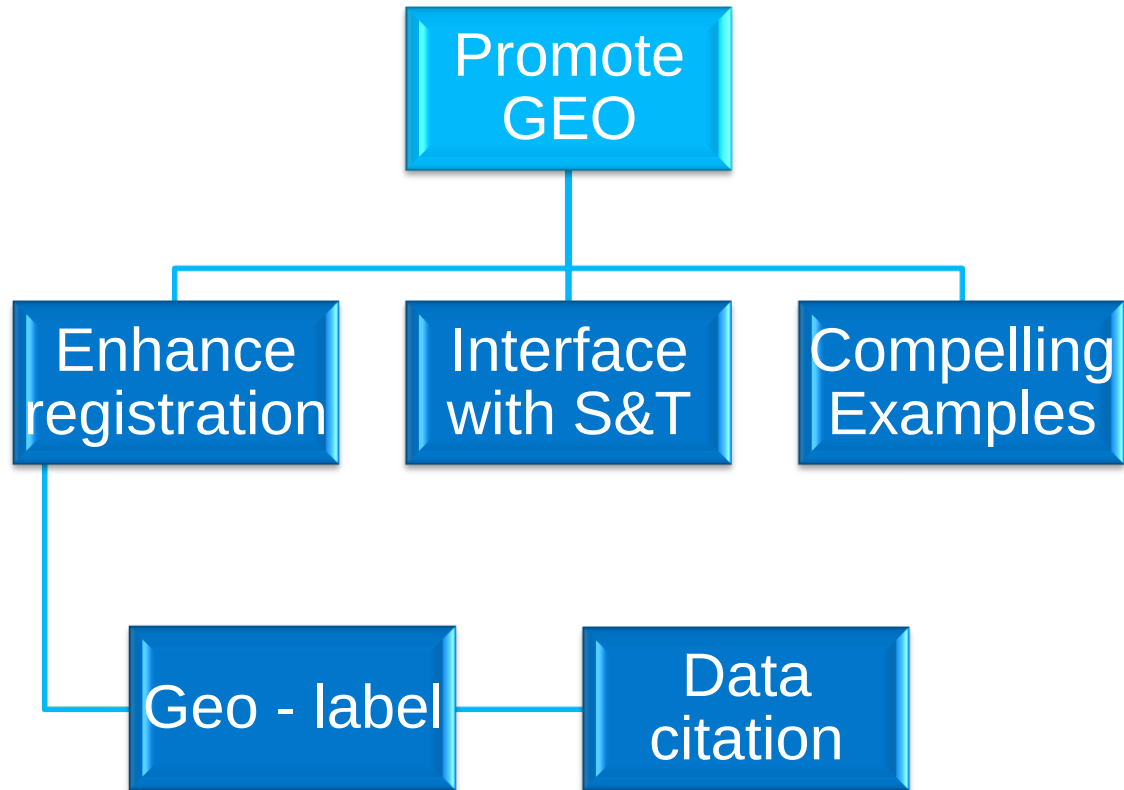

Outline

- Data citation
- Geo-label
- Show GEOSS at Work
- Interface with S&T Communities
- Enhance Registration

Structure

GEOSS Data Citation Guidelines

- Draft GEOSS Citation Guidelines V1.0 provided to STC
- Based on IPY and ESIP rules
- EGIDA working on V2.0, together with ST-09-02
- Traceability (DOI), versioning, etc.

Geo - Label

- EGIDA working together with ST-09-02
- EGIDA also coordinating with GeoViQua, and Aston team
- EGIDA drafting a review of existing “labels” – ready by summer

Show GEOSS at work

- **National Use Cases Workshop, ISPRA, Rome, 18-19 April 2011**
- Compelling examples
- Nico Bonora

Enhance registration of datasets

- Currently stalled/ad-hoc process
- Link with the GEO Data Sharing Task Force (DSTF) activities?
- EuroGEOSS and BalkanGEONet
- Need to establish methodology
- Incentives are key (make visible)
- Support owners with tutorials

Interface with S&T communities

- Currently stalled (perhaps more an issue of communication than real problem)
- D.3.3. Master plan for scientific sessions focusing on the GEOSS to S&T relationship – **living document created**
- Need to establish methodology

Summary

- EGIDA well placed within GEO network – linkages to BalkanGEONet, GeoViQua and others
- Delivered initial findings – i.e. ver 1.0 Data citation guidelines, master plan for scientific sessions
- Will now focus on stalled activities and incentives

EGIDA Project
